Preliminary Note: This office action includes new grounds of rejection under 35 USC 101. Suggestions are provided to overcome the rejections indicated. These suggestions may be implemented by Examiner's Amendment upon verbal authorization from applicant.

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 10-17 and 29 are rejected under 35 U.S.C. 101 because the claimed invention is non-statutory.

Claim 10: Claim 10 defines a method which results in sorted data items. The features of claim 10 do not define a tangible result.

MPEP 2106, Section IIA states:

The claimed invention as a whole must accomplish a practical application. That is, it must produce a "useful, concrete and tangible result." State Street, 149 F.3d at 1373, 47 USPQ2d at 1601-02. The purpose of this requirement is to limit patent protection to inventions that possess a certain level of "real world" value, as opposed to subject matter that represents nothing more than an idea or concept, or is simply a starting point for future investigation or research (Brenner v. Manson, 383 U.S. 519, 528-36, 148 USPQ 689, 693-96); In re Ziegler, 992, F.2d 1197, 1200-03, 26 USPQ2d 1600, 1603-06 (Fed. Cir. 1993)).

Suggestion: Amend claim 10 to define the output of sorted data items to a user. Output data items would constitute a tangible result.

Claims 11-17: Depend on claim 10.

Art Unit: 2164

Claim 29: Same rationale as claim 1. Note that a computer implemented method does not necessarily produce a tangible result (a result tangible to a user). While the computer may be tangible, it is the result itself which must be tangible.

Suggestion: Same suggestion as for claim 10.

Claims 18-24 and 31-32 are allowed. Claims 10-17 and 29 would be allowed if amended pursuant to the suggestion provided.

This office action is made non-final.

Any inquiry concerning this communication should be directed to Sam Rimell at telephone number (571) 272-4084.
